Appln. No. 10/552,369 Amendment After Final dated September 3, 2009 Reply to Final Office Action dated March 3, 2009

Amendments to the Claims:

This listing of the claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1. (Canceled)
- 2. (Currently Amended) The process for preparing an albumin preparation wherein an albumin-containing solution is subject to a step of filtration with a virus-removing membrane before a step of heat treatment sufficient to inactivate virus in a liquid state;

wherein said process comprises treating the albumincontaining solution with an anion exchanger and/or a prefilter before a step of filtration with a virus-removing membrane.

3. (Previously Presented) The process for preparing an albumin preparation according to claim 2 wherein said virus-removing membrane used in a step of filtration with a virus-removing membrane has a pore size of 10 to 20 nm.

Claim 4. (Canceled)

5. (Currently Amended) The process for preparing an albumin preparation of claim 4 claim 2 comprising using said prefilter, wherein said prefilter has a pore size of 35 to 200 nm.

Appln. No. 10/552,369 Amendment After Final dated September 3, 2009 Reply to Final Office Action dated March 3, 2009

- 6. (Original) A process for pretreating an albumincontaining solution before a step of filtration with a virusremoving membrane which comprises treating said albumin-containing
 solution with an anion exchanger and/or a prefilter before a step
 of filtration of said albumin-containing solution with a virusremoving membrane.
- 7. (Original) The process for pretreating an albumin-containing solution of claim 6 wherein said prefilter used in said treatment has a pore size of 35 to 200 nm.

Claim 8. (Canceled)

Claim 9. (Canceled)
